

Try the best Frankincense in the world—on dōTERRA.™

Called by locals “maydi,” or “king” of all frankincense, our essential oil of frankincense is harvested from trees grown in Oman, on the southeastern tip of the Arabian Peninsula. Acknowledged as the superior of various strains produced in the region (higher naturally occurring levels of sesquiterpenes), *Boswellia frereana* has a rich, woody, and slightly astringent fragrance with hints of honey and citrus. As with all of our essential oils, dōTERRA frankincense is Certified Pure Therapeutic Grade™, which guarantees complete purity, the absence of any contaminants, pesticides or other chemical residues, and the presence of those active compounds at the right levels needed to certify a therapeutic benefit.

We are so sure you will recognize the superiority of dōTERRA’s frankincense essential oil upon first experience, we will trade you any empty bottle of your Young Living, Forever Green, or Nature’s Sunshine frankincense oil for a 15 ml bottle of dōTERRA’s Certified Pure Therapeutic Grade frankincense. dōTERRA’s Omani frankincense is 100% pure, absorbs cleanly with no film or pasty residue, and has a smooth, full, rich fragrance without synthetic chemical aftertones common to inferior frankincense extracts. Simply complete and detach the promotional form below and mail with your empty bottle, pay a low shipping and handling charge of \$15, and we will send you a 15 ml bottle (\$93 retail value) of dōTERRA frankincense essential oil for free! (This generous offer is meant as an introduction of new people to dōTERRA’s superior essential oils. Offer not available to existing dōTERRA members.)

Do you miss how frankincense should smell? Do you miss how frankincense should perform? Rediscover the power of frankincense—welcome to dōTERRA, welcome home.
